RICHTER OPTICA

Quick Start Guide ToupCam WiFi Camera

Installation & First Use

1. The camera is designed to connect wirelessly to a smartphone, tablet, or computer through a free app called Toupview. **Install Toupview App from either iTunes or Google Play** onto your smartphone or tablet.

2. **Connect the included USB cable** to the camera and also to either a USB port on your computer or to a power outlet using the included white USB adapter. The blue LED light on the camera will begin flashing.

3. Browse your available networks on the smartphone/tablet and select the network titled **WCAM1080P_607991**.

4. When prompted for the network password enter **12345678**. This is also typed on a white label on the outside of the camera. The camera will then be connected.

5. **Open the ToupView App** and wait for it to automatically connect the live video feed from the camera.
   a. Pictures are captured with the camera icon in center circle. Switch between image capture and video record in the bottom right corner.
   b. Captured images and videos shown in Preview Panel on the bottom left corner. Images can be saved and opened from here.
